

*A new groundbreaking study shows how
New York State can meet the future!*

Renewable NY by 2030

**Local Energy Today
and Tomorrow!**

Join us to hear the co-authors of this study explain the technical capacity, economic feasibility and benefits of a renewable energy infrastructure that can transform our state by eliminating dependence on fossil fuels!

Speakers

Mark Z. Jacobson, PhD

(via Skype)

Professor of Civil and
Environmental Engineering,
Director, Atmosphere/Energy
Program, Stanford University

**Anthony R. Ingraffea,
PhD, PE**

Professor of Engineering,
Cornell University, and
President, Physicians,
Scientists and Engineers for
Healthy Energy, Inc.

Jannette M. Barth, PhD

Pepacton Institute LLC

Moderator

Paul Gallay, President
Hudson Riverkeeper

**Monday
May 13th
6:30 pm - 9 pm**

**Mount Kisco
Public Library
100 East Main Street
Mount Kisco, NY**

"This is an opportunity for the state of New York to take the lead, not only among U.S. states, but also among nations, to be at the forefront of reducing human mortality due to air pollution, reducing global warming emissions, providing stable and affordable energy prices far into the future, and increasing jobs for its citizens."

- Professor Mark Jacobson, Stanford University
