

RIVERKEEPER EcoSalon

Riverkeeper President Paul Gallay and the Board of Directors cordially invite you to join us for the sixth annual Riverkeeper EcoSalon

Taking Renewables and Energy Efficiency to the Next Level.

President Obama's call to reduce America's carbon emissions by 30% will require vast improvements in our energy efficiency and renewable energy. Riverkeeper's EcoSalon features thought leaders in energy policy, finance and architecture, with insights on how to craft a sound, sustainable energy plan — and make our public/private spaces more livable in the bargain.

Michael Gerrard, director of Columbia Law School's Climate Change Center, will moderate a distinguished panel, including **Peter Davidson**, Executive Director of the Loan Programs Office (LPO) at the U.S. Department of Energy, **Richard Kauffman**, Chairman of the New York State Energy Research and Development Authority (NYSERDA) Board, **David Post**, VP of Business Development, Enel Green Power North America and **Sean Gallagher**, Director of Sustainable Design at Diller Scofidio + Renfro.

Date and Time **Thursday, October 9, 2014**
Cocktails and hors d'oeuvres – **6:00 p.m.**
Panel discussion – **7:00 p.m.**
