

Ulster: What If it Happened Here?

A 97-car northbound freight train derailed in the Town of Ulster in February, 2014. A similar train derailed in Lac Megantic, Quebec in July, 2013. That one exploded, killing 47 people in a fire that spread 300 yards, and prompted a 1,100-yard evacuation zone. riverkeeper.org/crude #NotOnMyWatch
