

Don't Allow It.

Pilgrim Pipeline LLC plans to construct:

- Two pipelines along the NYS Thruway between Albany, NY and Linden, NJ to **transport volatile crude oil** south and **refined oil** north.
- The pipelines will be **crossing important waterways** including the Catskill Watershed and Coeymans/Hannacroix Creek Complex.
- Oil pipelines have proven to be dangerous and can **leak and pollute** the ground, water, and air.

Catskill and surrounding townships are already serving as crude oil transport hubs with “bomb” trains and oil barges. The proposed Pilgrim Pipelines **will not replace** these forms of transport.

To learn more, please come to
PILGRIM PIPELINES COMMUNITY FORUM
Thursday, October 1st, 7 to 9 PM
Bridge Street Theatre, 44 W Bridge St, Catskill, NY
Refreshments will be provided.

Panelists include:

Roger Downs of Sierra Club, Jen Metzger of Citizens for Local Power, Kate Hudson of Riverkeeper, and Iris Bloom of Protecting our Waters.

Other towns and villages around us are opposing the pipeline.

Find out why.
